

STREAMLINED PROJECT EXECUTION

H2O Innovation's packaged wastewater plants offer a plug-and-play approach to wastewater treatment. Whether the focus is simple operation, low energy use or superior effluent quality we have a solution to meet your needs.

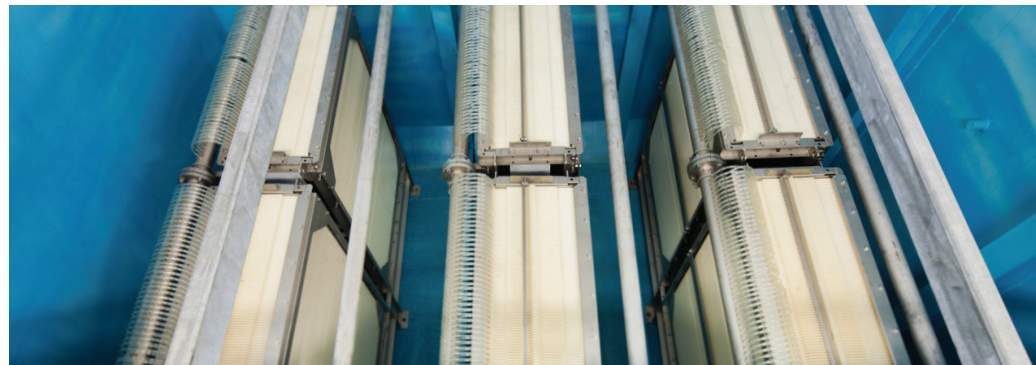

Bio-Wheel™ Series

- Simple Operation
- Reliable Treatment
- Low Energy Consumption

MBR Series

- Superior Effluent Quality
- Full Automation
- Remote Access Monitoring

Bio-Brane™ Series

- BioWheel IFAS Process
- Membrane Solids Separation
- State-of-the-Art Technology

Bio-Wheel	Capacity (gal/day)	Footprint (WxL)	Effluent Quality (mg/L)
BW-S	15,000	8 ft x 30 ft	BOD < 15 TSS < 15 NH3 < 5 TN < 10 TP < 1
BW-M	40,000	12 ft x 40 ft	
BW-L	80,000	14 ft x 56 ft	
MBR	Capacity (gal/day)	Footprint (WxL)	Effluent Quality (mg/L)
MBR-S	25,000	8 ft x 30 ft	BOD < 5 TSS < 5 NH3 < 1 TN < 10 TP < 0.15
MBR-M	65,000	12 ft x 40 ft	
MBR-L	100,000	14 ft x 56 ft	
Bio-Brane	Capacity (gal/day)	Footprint (WxL)	Effluent Quality (mg/L)
BB-S	20,000	8 ft x 30 ft	BOD < 5 TSS < 5 NH3 < 1 TN < 10 TP < 0.15
BB-M	55,000	12 ft x 40 ft	
BB-L	90,000	14 ft x 56 ft
